NIGHTSABRE™

NS-45S
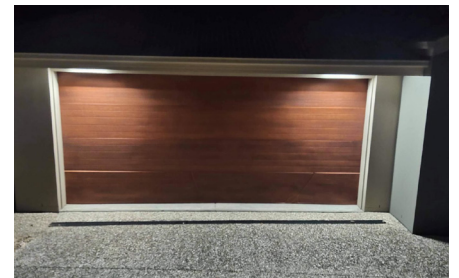

NS-60W

Discreet Linear Security - Defending from the outside

Delivering the very latest in high brightness LED technology in a sleek and discreet weatherproof form. These beautifully crafted aluminium floodlights can fit under a windowsill, above a door or under the eaves. Built to last for over 35,000 hours, covered by a 2 year warranty.

- Digital PIR sensor will reliably detect movement up to 9m away
- Integrated photocell ensures the light only operates when needed
- Flashing warning LED indicates the presence of an active security deterrent
- 12v & Wifi models available in white or anthracite finishes
- NS-45S has full app and voice assistant control and can integrate with other smart systems to create intelligent deterrents
- App based geofencing also supports welcome home lighting

NS-45P

Discreet PoE LED Security - Detering before entry

Crafted with the expertise of security installers and integrators in mind, our innovative security lights are powered from a PoE switch or injector through Cat5/6 cabling, spanning distances of up to 100 meters. Eliminating the need for an electrician, these lights can be easily installed by security integrators. The Normally Open alarm input allows further control from an external CCTV camera or alarm system with the NS-45P alarm input turning on the white light.

- 1400 Lumens motion activated floodlight and 9m PIR
- PoE power so it can be run from an NVR or network switch up to 100m
- Discreet linear form factor for low profile installations
- Alarm input turns on white LED floodlight
